Profile Summary

A driven and detail-oriented recent graduate seeking a challenging role where I can apply my data analysis, SQL, and Gen-AI skills to contribute to meaningful business decisions. My internship experiences have equipped me with the ability to extract valuable insights from complex datasets and support data-driven strategies.

Technical Skills

Languages: C, C++, Python

Databases: SQL, MongoDB

Cloud and Software: AWS, Hugging Face, Transformers, Langfuse

Other Skills: MS Excel, Data Analysis, GitHub, Machine Learning, GenAI

Experience

Movidu

Data Engineer Intern

June 2024 – Present

Gurugram, India

Project Summary

Automated Meeting Transcription and Summation (Movidu)

June 2024 - Present

Developed an AI system to efficiently transcribe and summarize meeting conversations. Leveraged machine learning and natural language processing techniques to achieve high accuracy.

Roles And Responsibilities:

- Data Collection and Preprocessing: Gather and clean audio recordings of meetings.
- Model Development: Train machine learning models to accurately transcribe speech and generate summaries.
- Evaluation and Refinement: Test the models on various datasets and refine them based on performance.
- User Interface Development: Create a user-friendly interface for interacting with the AI system.

Analytics for Cardiovascular Risk Prediction (Personal Project)

January 2024 - April 2024

Used gradient boosting to create a model accurately predicting heart disease risk. Outperformed decision trees and AdaBoost on our dataset.

Roles And Responsibilities:

- Collect and preprocess relevant medical data, ensuring accuracy and consistency.
- Extract meaningful features from the raw data to enhance model performance.
- Implement the gradient boosting algorithm and train the model using the prepared dataset.
- Assess the model's accuracy and make necessary adjustments to improve its predictive capabilities.

Certifications & Training

- Machine Learning (IIIT Allahabad) **July 2023 – Sept 2023**
- Full Stack Development (IBM) **Aug 2022 – Sept 2022**
- The Complete Networking Fundamentals Course. Your CCNA start (Udemy) **Dec 2022 - Jan 2023**

Areas of Interest

- Technology And Innovation
- Generative AI
- Computer Networks and Operative System

Education

United Institute of Technology

Bachelor of Technology, Computer Science

Dec 2020 – July 2024

S. P. D. School, Jaunpur

Intermediate

Apr 2017 – May 2019
